EDUCATION

B.E. in Computer Science — Yeshwantrao Chavan College of Engineering, Nagpur | 2019 – 2023

SKILLS

Product and Analytics: Product strategy, PRDs, product lifecycle, roadmapping, product thinking, GTM planning, market research, wireframing, no-code tools, SQL, GA4, API design, KPI definition, JIRA, A/B Testing

Collaboration and Execution: Stakeholder management, cross-functional collaboration, Agile/Scrum, user research, communication, problem solving, data-driven decision making

PROJECTS

Swish – Post-Order Experience & Retention Strategy

Product Strategy | UX Loops

- Conducted **user journey analysis to identify friction points post-purchase**, ensuring features directly mapped to retention pain points.
- Designed a **post-order growth loop** (loyalty XP, 1-tap reorder, live tracking) to tackle retention drop-offs.
- Defined success metrics: **7-day reorder uplift (12% → 25%)**, XP activation (60%), streak participation (35%), and faster reorder time (50% reduction).
- Created a **phased GTM rollout plan** (pilot → open launch → scale).

Super.Money UPI Adoption Strategy (Flipkart)

Fintech | User Research

- Conducted **primary & secondary research + competitor benchmarking** (PhonePe, GPay, Paytm, Navi, CRED) to uncover onboarding issues, reward dissatisfaction, and payment friction.
- **Formulated and prioritized innovative solutions** (Gamified Rewards, Checkout Nudges, Utility bill dashboard) to accelerate UPI activation and drive usage.
- **Set KPIs (UPI Setup Rate, Repeat Usage, Drop-off Rate)** to continuously measure feature adoption, supporting optimization of the product roadmap and improved conversion.
- Built a **prioritized rollout roadmap** with clear milestones for adoption, retention, and scaling phases.

Designed a Micro-Internship Platform for Students & Startups

PRD | Product Strategy

- **Designed and scoped** a platform connecting students with startups through short, skill-based projects, reducing barriers of long internships and costly freelancers.
- Built **user personas, end-to-end flows, and wireframes**, defining an MVP with task posting, multi-submission workflow, and reward mechanism.
- Conducted **market & competitor analysis across 6 platforms**, identifying unmet needs around proof-of-work portfolios and trust.
- Developed a **GTM strategy and success metrics**, positioning the product as a **student-first proof-of-work ecosystem**.

WORK EXPERIENCE

Aranya Consultancy — Data Analytics Intern Feb 2023 – May 2023

- **Partnered with cross-functional stakeholders** to deliver interactive Power BI dashboards tracking sales and retention KPIs, empowering leadership with data-driven product insights and decision-making.
- **Leveraged advanced SQL and analytics** to identify revenue growth opportunities and churn trends, directly influencing product optimization.
- Strengthened foundation in **data analytics & visualization**, bridging into product analytics skills.

COURSES & UPSKILLING

- **Product Management Launchpad** – Airtribe (2025)
- **Data Analytics Program** – 360DigiTMG (2024)
